GENERAL EXPLANATION

CENSUS COVERAGE

Method of Coverage—Effective with the 1967 Census of Business, a major shift in the method of compiling data was introduced. In the 1954, 1958, and 1963 Censuses data for all “employer” establishments (those which had some paid employment during the census year) were obtained through a mail canvass. Information for “nonemployers” was obtained from Federal income tax records.

In the 1967 Census of Business, retail firms were divided into two categories—the “mail universe” and the “nonmail” universe. The coverage of each component and the method of obtaining census information for these two groups are described below.

1. **The “nonmail” universe**—This group consists of firms which were not required to file a regular census return and includes the following categories:

a. **All “nonemployers”**—Consists of all firms with no paid employment during 1967. Sales information for these firms was obtained from 1967 Federal income tax records. Although made up of a large number of firms, the nonemployer segment accounts for only about 5 percent of total retail sales. (See “Comparison of the 1963 Census With the 1967 Census,” item 4, on the next page.)

In the 1967 Census, data for all nonemployer establishments were compiled from tax records. In the 1963 Census, data were compiled from only one-half of the nonemployer tax returns and were multiplied by 2 to establish census totals.

The census included only those retail nonemployer firms which reported a sales volume of \$2,500 or more during 1967 or, having been in operation for less than the full year, reported sales which would have reached a total of \$2,500 or more on an annual basis. This treatment is the same as in the 1963 Census.

b. **Selected “small employers”**—“Employ-

ers” consist of all business firms in the active records of the Internal Revenue Service (IRS) which were subject to payment of Federal Insurance Contribution Act (FICA) taxes. “Small employers” consist basically of all those single unit firms with payroll below a specified cutoff (except for a 10-percent sample of these which were included in the “mail” universe). The cutoff varied by kind of business and was designed, in most cases, to limit the “nonmail” group to establishments which would account for approximately 20 percent of total sales in each kind of business. The “number-of-employee” equivalent of the payroll cutoff generally was in the range of one to three employees.

Data on sales, payroll, and employment for “under cutoff” employer firms were obtained from the administrative records of the Internal Revenue Service (IRS) and the Social Security Administration (SSA).

2. **The “mail” universe**—Information for firms in this group was obtained basically by means of a mail canvass. However, information on first quarter payroll and mid-March employment for single-unit employers (section b below) was obtained from IRS and SSA records. The “mail” universe includes the following categories:

a. **Firms in the census prec canvass**—The census prec canvass operation was basically designed to identify firms which operated units at more than one location.

Firms which were included in the prec canvass were drawn primarily from 1963 Census records of multiunit firms and large employers. Miscellaneous categories of organizations (e.g., cooperative associations; State, county, and municipal liquor stores; and retail stores of utility companies) were also included in the prec canvass.

b. **Firms not in the census prec canvass**—Other firms included in the “mail” universe consist of the following categories:

(1) The 10 percent of “small employer” firms referred to in section 1-b above.

- (2) Other employers than those covered by section 1-b or 2-a above.

Comparison of the 1963 Census with the 1967 Census—Except for the method of coverage described above, the 1963 and 1967 censuses were conducted under similar conditions and procedures. Strict comparability of the data for the two censuses is limited by the following factors:

1. Classification—For both 1963 and 1967, nonemployer firms were classified on the basis of information supplied on the Federal income tax returns. However, the 1967 classifications for "nonemployer" firms were coded in less detail than in 1963. Therefore, 1967 data for the combination of "employer" and "nonemployer" establishments are presented in less kind-of-business detail than was the case in 1963. Data for employer establishments, however, are shown in full detail.

For 1963, nonemployer firms were classified by IRS personnel with technical assistance of Census Bureau personnel. For 1967, classification of these firms was performed by personnel of the IRS through use of a coded listing of the kinds of business which were to be separately identified. While the technique of classification was substantially the same and was based on the firm's description of its principal business activity, greater use was made in 1967 of "basket" classifications (e.g., miscellaneous food stores).

The 1967 Census classification for the small employer firms (see coverage of employers above) which were not mailed the Census report form was based on the following:

- a. If the firm had been in business in 1963, the kind-of-business classification which had been assigned in that census was used.
- b. If the firm was a "birth" since 1963, the SSA classification was used if it corresponded to a census classification.
- c. If an adequate kind-of-business classification could not be assigned under the procedure outlined in a. and b. above, the firm was mailed a brief inquiry requesting information needed to assign such a classification.
- d. If these three procedures proved inadequate, the firm's description of its principal business activity as entered on its IRS business tax return was used.

The 1967 Census classification for establishments in the mail universe (section 2 above) was assigned on the basis of answers to questions on sales by merchandise lines and other special inquiries.

In addition to differences in classification based on the method of enumeration, some

changes were made in the 1967 Census in the individual kind-of-business classifications which are detailed in the "Kind-of-Business Classifications" section below. The kinds of business involving significant changes are building materials dealers, optical goods stores, and refreshment places. These changes importantly limit the comparability of the 1967 Census data for these kinds of business with those for the previous census.

2. Areas—The physical area of a number of urban places for which data are shown in the 1967 Census is not the same as it was in the 1963 Census because of annexations and other boundary changes which occurred since 1963.

3. Active proprietors—In the 1963 Census, the number of active proprietors of unincorporated businesses was computed by crediting sole proprietorships with one proprietor and partnerships with two proprietors for each establishment in business during the week of November

15. In this report, the count of active proprietors is based on crediting each sole proprietorship with one active proprietor and each partnership with two active proprietors for the following types of firms, including multiunits firms:

- a. All "employer" firms which had a first quarter 1967 payroll.
- b. All "nonemployer" firms in business the full year.
- c. Every second "nonemployer" firm not in business the full year.

4. Coverage of nonemployers—Although a comparison of data for nonemployer firms from the 1963 and 1967 Censuses seems to indicate that there was an increase in the number of such firms and that they accounted for approximately as large a proportion of total retail sales volume in 1967 as in 1963, these conclusions are subject to the following limitations:

The combination of (1) the census processing cutoff occurring before the completion of the flow of tax forms from which the census nonemployer data were derived and (2) other processing omissions is estimated to have led to a loss of about 50,000 nonemployer firms, accounting for about one-half of 1 percent of retail sales volume in 1963. This estimate, which is based on a study of a sample of tax forms made after the 1963 Census results were compiled, reflects a more substantial census omission than previously had been estimated. Because of a later processing date for the 1967 Census, omissions from this census are believed negligible. Both censuses probably omitted a small number of nonemployers (accounting for a negligible sales volume) because the tax form kind-of-business description was

inadequate to indicate they conducted an in-scope kind of business.

As noted in section 1-a under "Method of Coverage" above, only those retail nonemployer establishments were included in the census which reported a sales volume of \$2,500 or more during 1967 or, having been in operation for less than the full year, reported sales which would have reached a total of \$2,500 or more on an annual basis. While these are the same rules used in the 1963 Census, a modification to reflect price changes probably would have resulted in the exclusion of several thousand additional marginal firms.

5. Payroll—In 1963 the inclusion in payroll of gratuities received by employees from patrons was not requested. In 1967, both in the case of payroll reported to the Internal Revenue Service and payrolls reported to the Census Bureau, businesses were requested to include in payroll the amount of tips and gratuities which were reported to employers as received by employees from patrons.

Types of Areas Covered—This series of reports presents data by kind of business for the following areas:

1. The State as a whole.
2. Each standard metropolitan statistical area.

The standard metropolitan statistical areas (SMSA's) for which data are shown are those defined by the Bureau of the Budget.¹ A standard metropolitan statistical area is a county or group of contiguous counties (except in New England) which contains at least one central city of 50,000 inhabitants or more or twin cities with a combined population of at least 50,000. In addition to the county or counties containing such a city or cities, contiguous counties are included in an SMSA if, according to certain criteria, they are essentially metropolitan in character and are socially and economically integrated with the central city. In New England, towns and cities rather than counties are the units used in defining an SMSA.

EXPLANATION OF TERMS

Establishments—An establishment is a single physical location at which business is conducted. An establishment is not necessarily identical with the "company" or "enterprise" which may consist of one or more establishments. Census of Business figures represent a summary of reports for individual establishments rather than companies. For businesses

which were mailed a census form, separate information was obtained for each location where business was conducted, including each location of multiunit organizations. Each report was tabulated in accordance with the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment, and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, in cases where distinct and separate economic activities (for which different industry classification codes were appropriate) were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification (SIC) Manual² for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the census.

In the case of leased departments (separately owned businesses operated as departments of a retail business under another ownership such as a separately owned shoe department in a department store), only a single establishment combining leased departments with the retail establishment in which they are located is recognized for 1967 Census purposes.

Sales—Sales include merchandise sold and receipts from repairs and from other services to customers whether or not payment was received in 1967. Sales are net of deductions for refunds and allowances for merchandise returned by customers. Trade-in allowances are not deducted from total sales. Total sales exclude amounts other than those received from customers, such as income from investments, rental of real estate, etc. They include local and State sales taxes and Federal excise taxes collected by the store directly from customers and paid directly by the store to a local, State, or Federal tax agency. Gasoline, liquor, tobacco, and other excise taxes which are paid by the manufacturer or wholesaler and passed along to the retailer are also included.

Sales do not include retail sales made by manufacturers, wholesalers, service establishments, and other businesses whose primary activity is other than retail trade. They do, however, include receipts other than from the sale of merchandise at retail (e.g., service receipts, sales to industrial users, and sales to other retailers) by establishments primarily engaged in retail trade.

Although the count of establishments in this report represents the number in business at

¹ Executive Office of the President, Bureau of the Budget, *Standard Metropolitan Statistical Areas, 1967*, as amended January 15, 1968.

² Executive Office of the President, Bureau of the Budget, *Standard Industrial Classification Manual, 1967*.

the end of the year, the sales figures include sales of all establishments in business at any time during the year. Data for nonemployer establishments are included in the tables if they operated at an annual sales volume rate of \$2,500 or more; however, data for part year nonemployers have not been projected to a full year's operation.

Payroll, entire year—Payroll includes all forms of compensation such as salaries, wages, commissions, bonuses, vacation allowances, sick leave pay, and the value of payments in kind (such as free meals and lodgings) paid during the year to all employees. Tips and gratuities received by employees from patrons which are reported to employers are included. For corporations, it includes amounts paid to officers and executives; for unincorporated businesses, it does not include compensation of proprietors or of partners. Payroll is reported before deductions for social security, income tax, insurance dues, etc. This definition of payroll is the same as that used by the Internal Revenue Service for purposes of reporting on Form 941.

Payroll for the first quarter of 1967—This item consists of payroll, as defined above, paid to persons on the payroll during the January–March 1967 quarter.

Paid employees for the pay period including March 12, 1967—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll in the pay period including March 12, 1967. Included are employees on paid sick leave, paid holidays, and paid vacations. Proprietors and partners of unincorporated businesses are not included. The definition of paid employees is the same as used in reporting on IRS Form 941.

Active proprietors of unincorporated businesses—The number of active proprietors shown in this report is based on crediting each sole proprietorship with one active proprietor and each partnership with two active proprietors for the following types of firms:

1. All payroll firms which had a first quarter payroll.
2. All nonpayroll firms in business the full year.
3. Every other nonpayroll firm not in business the full year.

For multiunit proprietorships and partnerships, proprietors were credited to only one establishment of such multiunits.

Central administrative offices and auxiliaries—Each company included in this census was asked to identify and report separately as

“central administrative offices” or “auxiliaries” those locations whose primary functions were to manage, administer, service, or support the activities of the other establishments of the company. Data for such central administrative offices or auxiliaries which primarily service retail establishments are given in tables 12 and 13 of the area reports but are not included in this report.

KIND-OF-BUSINESS CLASSIFICATIONS

Retail trade, as defined in major groups 52 through 59 of the 1967 edition of the SIC Manual, includes establishments primarily engaged in selling merchandise to customers for personal, household, or farm use. Some of the important characteristics of retail trade establishments are: (1) The establishment is engaged in activities to attract the general public to buy; (2) the establishment buys or receives merchandise as well as sells; (3) the establishment may process its products, but such processing is incidental or subordinate to selling; and (4) the establishment is considered “retail” by the trade.

In this report, liquor stores operated by State and local governments, classified in SIC major groups 92 and 93, are also included.

Excluded from retail trade are places of business operated by institutions and open only to members or personnel, such as school cafeterias, restaurants and bars operated by clubs, eating places operated by industrial and commercial enterprises for their own employees, establishments operated by agencies of the Federal Government on military posts, hospitals, etc. (As noted previously, there is a table in this report showing data for establishments on military, air, and naval posts.)

Establishments covered by the census were assigned a kind-of-business classification in accordance with the provisions of the 1967 edition of the SIC Manual. However, because in some instances a more detailed classification is required for census purposes than is available in the SIC Manual, additional kinds of business have been identified within the SIC categories.

It should be noted that kind-of-business classifications are not interchangeable with commodity classifications. Most businesses sell a number of kinds of commodities. The kind-of-business code assigned generally reflects either the individual commodity or the commodity group which is the primary source of the establishment's receipts or some mixture of commodities which characterize the establishment's business. Thus, the classification of establishments by kind of business generally does not make it possible to determine either the number of establishments

handling a particular commodity or the sales of that commodity. For example, the "food group" classification excludes stores selling some food if the sale of food is not the primary source of receipts; moreover, even though stores are classified as "food stores" some of their receipts may be derived from the sale of nonfood products. (Some indication of the extent to which various broad groups of commodities or lines of merchandise are characteristic of different kinds of business will be available in the Census of Business report, Sales by Line of Merchandise, Series BC67-RS.)

The basis for kind-of-business classification is described above in the sections under "Method of Coverage" and "Comparison of the 1963 Census With the 1967 Census—Classification." Descriptions of those kinds of business for which data are provided follow.

BUILDING MATERIALS, HARDWARE, AND FARM EQUIPMENT DEALERS (SIC Major Group 52)

This major group includes establishments primarily selling lumber, building materials, the basic lines of hardware, paint, wallpaper, glass, electrical supplies, roofing materials, and other equipment and supplies for all types of construction. Establishments primarily selling farm equipment are also included. Establishments in this group sell to contractors as well as to the general public. Establishments in this group which do not deal in lumber or millwork are classified as retail trade if sales to the general public equal 15 percent or more of total sales and sales to the general public and contractors combined equal 50 percent or more of total sales; otherwise they are classified as wholesale trade. (See below for discussion of treatment in 1967 of establishments which deal in lumber.)

Lumber and other building materials dealers (SIC 521)—Establishments primarily selling lumber, millwork, and other building materials and construction supplies such as brick, tile, cement, sand and gravel, cinder blocks, fencing materials, storm doors and windows, wall-board and roofing materials. In the 1967 Census of Business, data for lumber yards and for building materials dealers have been combined into a single kind-of-business classification, "Lumber and other building materials dealers." In the 1963 Census of Business data for these two kinds of business were shown separately.

Establishments which deal in lumber as well as other building materials, whose reported sales of lumber and millwork are 1 percent or more of their total sales and whose sales to the

general public amounted to 1 percent or more of total sales, are classified as retail if their sales to the general public and to contractors combined equal 50 percent or more of total sales. In 1963, establishments dealing in lumber and other building materials were classified as "wholesale" if less than 15 percent of their total sales were to the general public.

Plumbing and heating equipment dealers (SIC 522)—Establishments primarily selling plumbing, heating, and air-conditioning equipment and supplies. Establishments primarily engaged in installation on a contract basis or in repairs are included in Contract Construction.

Paint, glass, and wallpaper stores (SIC 523)—Establishments primarily selling paint, glass, and wallpaper or any combination of these lines. Establishments primarily engaged in installing glass or in wallpapering or painting are not included in Retail Trade.

Electrical supply stores (SIC 524)—Establishments primarily selling electrical supplies such as lighting fixtures, lamp bulbs, wiring, cable, and fuse boxes. Establishments primarily selling electrical appliances are included with "Furniture, Home Furnishings, and Equipment Stores" (SIC major group 57).

Hardware stores (SIC 5251)—Establishments primarily selling a number of basic hardware lines such as tools, builders' hardware, paint and glass, housewares and household appliances, cutlery, and roofing materials, no one of which accounts for 50 percent or more of the sales of the establishments.

Farm equipment dealers (SIC 5252)—Establishments primarily selling new or used farm tractors, reapers, mowers, planters, plows, and related farm equipment. Usually these establishments also sell farm hardware and miscellaneous farm supplies.

GENERAL MERCHANDISE GROUP STORES (SIC Major Group 53, Part)

This group includes all establishments within SIC major group 53, "General Merchandise," except for "nonstore" establishments (SIC's 532, 534, and 535), which for purposes of this publication are separately classified. (See "Nonstore Retailers" below.) This major group includes establishments which sell several lines of merchandise such as dry goods, apparel and accessories, furniture and home furnishings, small wares, hardware, and food.

Department stores (SIC 531)—Establishments normally employing 25 people or more, having sales of apparel and softgoods combined amounting to 20 percent or more of total sales,

and engaged in selling each of the following lines of merchandise:

1. Furniture, home furnishings, appliances, radio and TV sets.
2. A general line of apparel for the family.
3. Household linens and dry goods.

For establishments classified as department stores in 1963, sales of any one of the above merchandise lines cannot exceed 85 percent of total sales; for establishments included in classifications other than department stores in 1963, sales of any one of these lines cannot exceed 75 percent of total sales; for all other establishments to qualify as department stores, sales of each of the lines listed above must be less than 80 percent of total sales.

An establishment with total sales of \$5 million or more is classified as a department store even if sales of one of the merchandise lines described above exceeds the maximum percent of total sales, provided that the combined sales of the other two groups is \$500,000 or more. Relatively few stores are included in this classification as a result of this special rule and most of those which are would otherwise have been classified in the apparel group (SIC major group 56).

Variety stores (SIC 533)—Establishments primarily selling a variety of merchandise in the low and popular price ranges such as stationery, apparel and accessories, housewares, toys, toilet articles, hardware, and confectionery. These establishments frequently are known as "5 and 10 cent" stores and "5 cents to a dollar" stores, although merchandise is usually sold outside these price ranges.

Classification of stores in this category is primarily based on self designation by the store operators. In the 1963 Census of Business this industry was titled "limited price variety stores."

General merchandise stores (part of SIC 539)—Establishments primarily selling several lines of merchandise such as household linens and dry goods, and/or a combination of apparel, hardware, housewares, or home furnishings and other lines in limited amounts. Establishments which meet the criteria for department stores, except as to employment, are included in this classification. Also included in this classification are establishments whose sales of "apparel" or of "furniture and home furnishings" exceed half of their total sales providing that sales of the smaller of the two lines in combination with "dry goods and household linens" accounts for 20 percent or more of total sales.

Dry goods stores (part of SIC 539)—Establishments primarily selling piece goods, linens,

towels, blankets, spreads, and other dry goods.

Sewing and needlework stores (part of SIC 539)—Establishments primarily selling sewing and knitting supplies, patterns, lace, and notions.

FOOD STORES (SIC Major Group 54)

Establishments primarily selling food for home preparation and consumption. Establishments primarily selling prepared food and drinks for consumption on their own premises are classified as "Eating and Drinking Places" (SIC major group 58) and stores primarily engaged in selling packaged beers and liquors are classified separately as "Liquor stores" (SIC 592).

Grocery stores (SIC 541)—Establishments primarily selling (1) a wide variety of canned or frozen foods such as vegetables, fruits, and soups; (2) dry groceries, either packaged or in bulk, such as tea, coffee, cocoa, dried fruits, spices, sugar, flour and crackers; (3) other processed food and nonedible grocery items. In addition these establishments often sell smoked and prepared meats, fresh fish and poultry, fresh vegetables and fruits, and fresh or frozen meats.

Establishments commonly known as supermarkets, food stores, and delicatessens are included in this classification if receipts from sales of groceries and food items for off-premise preparation and consumption are 50 percent or more of total sales.

In the 1963 Census of Business this industry was titled "grocery stores, including delicatessens."

Meat markets (part of SIC 542)—Establishments primarily selling fresh, frozen, or cured meats. Frequently these establishments also sell poultry, fish, dairy products, eggs, and some groceries. Establishments included in this category reported that "meat, fish, poultry" sales accounted for 80 percent or more of total sales, and that "fresh, frozen meat" accounted for 50 percent or more of their total receipts.

Fish (seafood) markets (part of SIC 542)—Establishments primarily selling fresh or frozen fish, oysters and other shellfish, and other seafoods. These establishments frequently sell other food items commonly used in preparing seafood or consumed with seafoods. Establishments included in this category reported that "fish, other seafood" accounted for 50 percent or more of total receipts.

Fruit stores and vegetable markets (SIC 543)—Establishments primarily selling fresh fruits

and fresh vegetables. These establishments frequently carry a limited line of grocery items. Roadside stands of farmers selling only their own produce are not included in the Census of Business.

Candy, nut, and confectionery stores (SIC 544)—Establishments primarily selling candy, nuts, sweetmeats, and other confections. A soda fountain or lunch counter is frequently operated in these stores. Candy and popcorn stands operated as concessions in motion picture theaters are included in this classification.

Retail bakeries—baking and selling (SIC 5462)—Establishments primarily selling bakery products such as bread, cakes, pies, or cookies over the counter, some or all of which are baked on their own premises.

Bakeries, most of whose products are distributed directly to consumers or to stores by means of route delivery, are not included in the Census of Business but are included in the Census of Manufactures (SIC 205). In the 1963 Census of Business this industry was titled "Retail bakeries, manufacturing."

Retail bakeries—selling only (SIC 5463)—Establishments primarily selling bakery products such as bread, cakes, pies, or cookies over the counter, none of which are baked on the premises. In the 1963 Census of Business this industry was titled "Retail bakeries, nonmanufacturing."

Dairy products stores (SIC 545)—Establishments primarily selling dairy products such as fluid milk and cream, cheese, ice cream and sherbets, over the counter. A limited line of groceries is frequently carried. Ice cream and frozen custard stands are classified in SIC 5812, "Eating places," and establishments which distribute ice cream and similar products from trucks are classified in SIC 5351, "Direct selling establishments." Establishments which bottle, pasteurize, homogenize, or otherwise process and distribute fluid milk are not included in the Census of Business, but are included in the Census of Manufactures (SIC 202).

Egg and poultry dealers (part of SIC 549)—Establishments primarily selling eggs and live or dressed poultry. A limited line of groceries is frequently carried.

Other miscellaneous food stores (part of SIC 549)—Establishments not elsewhere classified, primarily selling specialized lines of food such as coffee and tea, spice, health foods, dietetic food, etc. In the 1963 Census of Business this industry was titled "Other."

AUTOMOTIVE DEALERS (SIC Major Group 55, Except 554)

This group includes establishments which sell new and used automobiles and new parts and accessories, aircraft and marine dealers, and mobile home dealers. Establishments dealing exclusively in used parts are classified in SIC 5933, "Secondhand stores." Automotive distributors whose sales are primarily to dealers, and establishments primarily engaged in selling trucks and motorized industrial equipment are included in the Wholesale Trade portion of the Census of Business.

Motor vehicle dealers—new and used cars (SIC 551)—Establishments primarily engaged in the sale of new automobiles or new and used automobiles. These establishments frequently have repair departments, used car lots and carry stocks of replacement parts, tires, batteries, and automotive accessories, and may also sell commercial vehicles. In some tabulations this category is subdivided to show data separately for (1) dealers with domestic car franchises only, (2) dealers with imported car franchises only, and (3) dealers with domestic and imported car franchises. Used car lots and repair departments of franchised dealers are not recognized as separate establishments. Data for such operations are included in a single report from the franchised passenger car dealer. In the 1963 Census of Business this industry was titled "Passenger car dealers, franchised."

Motor vehicle dealers—used cars only (SIC 552)—Establishments primarily selling used cars and not holding a franchise for the sale of new passenger cars. In the 1963 Census of Business this industry was titled "Passenger car dealers, nonfranchised."

Home and auto supply stores (part of SIC 553)—Establishments engaged in selling a combination of lines of merchandise including tires, batteries and accessories, household appliances, radios and television sets, sporting and recreational goods, toys, housewares, and hardware, of which sales of tires, batteries and accessories account for between 25 and 49 percent of total sales.

Other tire, battery, accessory dealers (part of SIC 553)—Establishments primarily selling new automobile tires, batteries, automobile seat covers and other automotive parts and accessories. Establishments primarily selling used merchandise in these categories are classified as "Secondhand stores" (SIC 5933).

Boat dealers (SIC 5591)—Establishments primarily selling motorboats and other watercraft, marine supplies and outboard motors.

Household trailer dealers (SIC 5592)—Establishments primarily selling household trailers, mobile homes and campers.

Aircraft, motorcycle dealers (part of SIC 5599)—Establishments primarily selling new or used motorcycles, or aircraft to noncommercial users. Dealers selling parts and supplies for these products to noncommercial users are also included.

Automotive dealers, n.e.c. (part of SIC 5599)—Establishments primarily selling automotive products not elsewhere classified.

GASOLINE SERVICE STATIONS (SIC 554)

Establishments primarily selling gasoline and automotive lubricants. Usually these establishments also sell tires, batteries, and accessories, and perform minor repair work and services. Establishments called garages but deriving more than half of their receipts from sale of gasoline and oil are included.

APPAREL AND ACCESSORY STORES (SIC Major Group 56)

Establishments in this group are primarily engaged in selling clothing of all kinds and related articles for personal wear and adornment. Not included in this group are establishments which meet the criteria for department stores (SIC 531) or general merchandise stores (part of SIC 539) even though most of their receipts are from the sale of apparel and apparel accessories.

Women's ready-to-wear stores (SIC 562)—Establishments primarily selling women's and girls' ready-to-wear apparel. Establishments are included in this category provided (1) their sales of all types of apparel (except as noted in the definition for general merchandise group stores) account for 80 percent or more of total sales, (2) sales of all women's and girls' apparel are three or more times the sales of all men's and boys' apparel, and (3) sales of dresses, coats and suits, and furs are two or more times greater than sales of millinery, hosiery, underwear, blouses, handbags, and other apparel and accessories.

Establishments primarily selling garments made to customer order are classified as "Custom tailors" (SIC 567). This industry includes ready-to-wear "Bridal shops" and "Maternity shops" which were classified as separate industries in the 1963 Census of Business.

Millinery stores (part of SIC 563)—Establishments primarily selling women's hats, including those making hats on the premises to customer order.

Corsets and lingerie stores (part of SIC 563)—Establishments primarily selling women's foundation garments, lingerie, negligees, robes, and other intimate wear. Establishments primarily engaged in selling foundation garments made or fitted to individual customer order are also included.

Other women's accessory, specialty stores (part of SIC 563)—Establishments primarily selling a specialized line of women's and girls' apparel items (such as sportswear, beachwear, blouses, and hosiery). Included in this industry are establishments which meet the definition for women's ready-to-wear stores except that receipts from sales of dresses, coats, suits, and furs are not twice as much or more than sales of other women's and girls' apparel. Establishments which sell men's and boys' apparel in combination with women's and girls' apparel may be classified as "Family clothing stores" (SIC 565) under conditions specified in the definition for that kind of business.

This industry includes "hosiery stores" which were separately classified in the 1963 Census of Business.

Furriers and fur shops (SIC 568)—Establishments primarily selling furs and fur garments. Establishments primarily engaged in selling fur garments made on their own premises to individual order are also included.

Men's and boys' clothing and furnishings stores (SIC 561)—Establishments primarily selling men's and boys' ready-to-wear clothing and furnishings. If children's and infants' footwear are not carried, sales of the larger of the two remaining groups are not more than three times the sales of the smaller. See also the definitions for the other types of shoe stores.

Children's and infants' wear stores (SIC 564)—Establishments primarily selling children's

and infants' clothing, furnishings, and accessories.

Also included are caterers who sell prepared foods which are served elsewhere than at their place of business and in-plant food contractors. Data for in-plant food contractors are included in the United States Summary report. Eating and drinking places operated as leased concessions in theaters, hotels, motels, and places of amusement are included here. Candy and popcorn stands located in theaters are, however,

included in "Candy, nut, and confectionery stores" (SIC 5441).

Restaurants, lunchrooms, caterers (part of SIC 5812)—Establishments primarily selling prepared food and drink for consumption either on the premises or at a place designated by the customer. Establishments calling themselves caterers but not selling prepared foods as part of their business activity are not included in this category.

Establishments in which sales of alcoholic beverages for consumption on the premises exceed receipts from sales of prepared foods and nonalcoholic beverages are classified as "Drinking places" (SIC 5813). Counter or table service may be provided at establishments calling themselves restaurants or lunchrooms.

Cafeterias (part of SIC 5812)—Establishments primarily selling prepared foods and drinks for consumption on the premises. In these establishments the customers serve themselves.

Refreshment places (part of SIC 5812)—Establishments primarily selling limited lines of refreshments and prepared food items. Included in this group are establishments which prepare refreshment items such as frozen custard, pizza, barbequed chicken, and hamburgers for consumption either on or near the premises or for "take-home" consumption.

In the 1963 Census of Business, ice cream, frozen custard, soft ice cream, and similar refreshment items sold from trucks were included in this classification. In the 1967 Census of Business, these establishments are classified as "Direct selling (house-to-house canvass) establishments" (SIC 5351) in the "Nonstore Retailers" group.

Drinking places (alcoholic beverages) (SIC 5813)—Establishments primarily selling drinks such as beer, ale, wine, liquor, and other alcoholic beverages for consumption on the premises. Prepared foods are frequently sold at these establishments, but receipts from sales of alcoholic beverages exceed receipts from sales of food.

DRUG STORES AND PROPRIETARY STORES (SIC 591)

Drug stores (part of SIC 591)—Establishments which fill and sell prescriptions. These establishments also sell proprietary drugs, patent medicines, and other health and first-aid products. Usually these establishments also sell a variety of other merchandise such as cos-

metics, toiletries, candy, tobacco products, magazines, and toys.

Proprietary stores (part of SIC 591)—Establishments generally selling the same merchandise as drug stores, except that prescriptions are not filled and sold.

MISCELLANEOUS RETAIL STORES (SIC Major Group 59, Except 591)

This major group includes retail stores not elsewhere classified. In the 1963 Census of Business this group was called "Other retail stores."

Liquor stores (SIC 592), also government-operated liquor stores (part of major groups 92 and 93)—Establishments primarily selling packaged alcoholic beverages such as ale, beer, wine, and whiskey for consumption off the premises. Fuel and ice dealers, n.e.c. (SIC 5982)—Establishments primarily selling coal, coke, charcoal, wood, ice, or any combination of these lines.

In the 1963 Census of Business, data were shown separately for "Coal and wood dealers" (part of SIC 5982) and "Ice dealers" (part of SIC 5982).

Florists (SIC 5992)—Establishments primarily selling cut flowers and growing plants. Greenhouses and nurseries are not included in the Census of Business unless receipts are primarily from sales of products not grown on the premises. However, retail establishments primarily selling seeds, bulbs, and nursery stock are classified in SIC 5969, "Farm and garden supply stores, n.e.c."

Cigar stores and stands (SIC 5993)—Establishments primarily selling cigars, cigarettes, tobacco, and smokers' supplies. Many of the establishments included in this classification are operated as concessions in places of amusement, railway stations, airports, and other public places. Establishments operated by the blind, but owned by State agencies are included here.

Book stores (SIC 5942)—Establishments primarily selling new books and periodicals. Stationery and related items may also be sold by these establishments. Book clubs (not engaged in publishing) primarily selling new books through the mail are included in SIC 532 "Mail order houses" in the "Nonstore Retailers" group.

Stationery stores (SIC 5943)—Establishments primarily selling stationery items such as paper and paper products (including printing and engraving), school and office supplies, accounting and legal forms, greeting cards, post cards and novelties. Establishments selling primarily to business and institutional users are classified in Wholesale Trade.

Hay, grain, and feed stores (SIC 5962)—Establishments primarily selling hay, grain, and feed. These establishments also frequently sell fertilizer and other farm supplies and equipment.

Other farm supply stores (part of SIC 5969)—Establishments primarily selling farm supplies other than hay, grain, and feed, not elsewhere classified such as seed, fertilizer, irrigation and drainage equipment, pumps, agricultural chemicals, and dairy supplies.

Garden supply stores (part of SIC 5969)—Establishments primarily selling seeds, bulbs, nursery stock, garden tools, and other farm, and garden supplies and tools. Nurseries and greenhouses are not within the scope of the

Census of Business unless receipts are primarily from sales of products not grown on the premises.

News dealers and newsstands (SIC 5994)—Establishments primarily selling newspapers, magazines, and other periodicals.

Hobby, toy, and game shops (SIC 5995)—Establishments primarily selling toys, games, and hobby kits and supplies. Establishments primarily selling artists' supplies, or collectors' items such as coins, stamps, and autographs are classified in SIC 5999, "Miscellaneous retail stores, n.e.c."

Camera and photographic supply stores (SIC 5996)—Establishments primarily selling cameras, film, and other photographic supplies and equipment. Establishments primarily engaged in finishing films are classified in Industry 7395 in the Selected Services portion of the Census of Business.

Gift, novelty, and souvenir shops (SIC 5997)—Establishments primarily selling combined lines of gift and novelty merchandise, souvenirs, and miscellaneous small art goods such as greeting cards and holiday decorations.

Optical goods stores (part of SIC 5999)—Establishments primarily engaged in selling eyeglasses and related optical goods. In 1967 establishments whose receipts were primarily from eye examinations and prescribing eyeglasses or contact lenses and providing the eyeglasses or contact lenses they prescribed were not included in the Census of Business; in 1963 such establishments were included in this classification.

Retail stores, n.e.c. (part of SIC 5999)—Establishments not elsewhere classified primarily selling specialized lines of merchandise such as collectors' items and supplies, artists' supplies, orthopedic and artificial limbs, drafting materials, typewriters, luggage and leather goods, pets, religious goods, hearing aids, rubber stamps, monuments and tombstones, and other merchandise not elsewhere classified.

In the 1963 Census of Business, data for typewriter stores, luggage, leather goods stores, religious goods stores, and pet shops (all parts of SIC 5999) were shown separately. For the 1967 Census of Business, no separate data are available for these kinds of business.

NONSTORE RETAILERS

(Part of SIC Major Group 53)

Mail-order houses (SIC 532)—Establishments primarily selling merchandise as a result of orders received by mail. Customers are made aware of goods available for sale through

catalogs, mailing pieces, advertisements in newspapers and magazines, and advertising on radio and television. Houses operated by companies which operate catalog order stores and catalog order desks in other retail establishments of the company, also fill orders from those sources. Catalog order stores are included in this classification and they are counted as separate establishments. Sales made from catalog order desks are included with the sales of the retail establishment in which they are located.

In some tabulations at the national or geographic division level, mail-order houses are divided into subclassifications on the basis of the merchandise they sell in the same manner as the store-type establishments.

Merchandising machine operators (SIC 534)—Establishments primarily selling merchandise through coin-operated vending machines which are generally located on the premises of other businesses. In the 1963 Census of Business this industry was titled "Merchandise vending machine operators."

Since a large number of merchandise vending machine operations are conducted in conjunction with the operation of manufacturing plants and of wholesale and other establishments not classified in retail trade, data for "retail" merchandise vending machine operators should not be interpreted as providing a measure of total sales through merchandise vending machines. The data for "retail" merchandise vending machine operators also do not include sales made through vending machines owned by establishments classified in other kinds of retail trade. Merchandise vending machine operators are divided into subclassifications on the basis of the merchandise sold in the machines on location as of the end of the census year. Operators of coin-operated service machines such as washers, dryers, music machines, and amusement and game machines are included in the Selected Services portion of the 1967 Census of Business.

Direct selling establishments (SIC 535)—Establishments primarily selling merchandise by house-to-house canvass, by party plan, or from a truck. When the canvassers are employed by the organization which they represent, the "establishment" is the location from which they operate. However, many of the important organizations whose products are distributed in this manner utilize self-employed canvassers as their representatives. Each such canvasser is counted as an "establishment" in this report. As a result, the "number of establishments" count is considerably larger than would be the case if the count were based on

the primary organizations whose products are being distributed. Establishments in operation throughout the census year were included if their annual sales were \$2,500 or more; establishments in operation during part of the census year were included only if their sales were at an annual rate of \$2,500 or more. Consequently, the "number of establishments" in this category should not be interpreted as being a count of the total number of self-employed canvassers.

Direct selling organizations are divided into subclassifications on the basis of the merchandise they sell. Establishments selling ice cream, frozen custard, soft ice cream and similar refreshment items from trucks were included with "refreshment places" (part of SIC 5812) in the 1963 Census of Business but are now included in this classification. In the 1963 Census of Business this industry was

titled "Direct selling (house-to-house) organizations."

Appendix E

SIZE CLASSIFICATIONS

SALES-SIZE CLASSIFICATION—Retail trade analyses by sales size are designed to provide data for a maximum of 12 sales-size groups for establishments operated the entire year. For the purpose of these tabulations, an establishment is classified as an entire-year establishment if it operated 10 months or more during the year and was in operation at the end of the year. Seasonal establishments, which normally operate for only a part of the year, are treated as "entire year" or "not entire year" on the basis of the length of time that the establishment was owned rather than the length of time it was open for business during the census year.

For purposes of sales-size tabulations, the entire-year establishments have been classified into 12 sales-size groups depending on the value of sales and receipts reported for the year 1967. These sales-size groups are as follows:

- \$5,000,000 or more
- \$2,000,000 to \$4,999,000
- \$1,000,000 to \$1,999,000
- \$500,000 to \$999,000
- \$300,000 to \$499,000
- \$100,000 to \$299,000
- \$50,000 to \$99,000
- \$30,000 to \$49,000
- \$20,000 to \$29,000
- \$10,000 to \$19,000
- \$5,000 to \$9,000
- Less than \$5,000

As the class interval descriptions indicate, establishments were classified by sales-size group after the reported sales and receipts figures had been rounded to the nearest thousand dollars. Each figure was rounded by striking off the hundreds, tens, and unit digits from the reported dollars. One thousand dollars was then added to half of the reports. This method is less costly and less susceptible to error than methods previously used and does not cause significant differences from other methods.

EMPLOYMENT SIZE—Analyses of retail trade by employment size provide data for a maximum of 12 employment-size groups for establishments operated the entire year. For the purpose of these tabulations, an establishment is classified as an entire-year establishment if it operated 10 months or more during the year and

was in operation at the end of the year. Seasonal establishments, which normally operate for only a part of the year, are treated as "entire year" or "not entire year" on the basis of the length of time that the establishment was owned rather than the length of time it was open for business during the census year. Proprietors and unpaid family workers were not regarded as employees in determining the employment size of establishments.

The following employment-size groups are used in this report:

- No paid employees
- 1 paid employee
- 2 paid employees
- 3 paid employees
- 4 or 5 paid employees
- 6 or 7 paid employees
- 8 or 9 paid employees
- 10 to 14 paid employees
- 15 to 19 paid employees
- 20 to 49 paid employees
- 50 to 99 paid employees
- 100 paid employees or more

SINGLE UNITS AND MULTIUNITS—An establishment is classified as a single unit if it is operated by a firm which operates only one establishment in a particular kind-of-business group. An establishment is classified as a multiunit if it is one of two or more establishments in the same general kind of business operated by the same firm. The following listing indicates the kind-of-business groupings of selected service establishments made for this purpose. Kinds of business not listed below are not, for this purpose, considered to be related to any other kind of business.
